

Mahmudul Hasan

Junior Front-End Web-Developer

MY PROJECTS

BIKE-SELL - [Live site link](#) || [client-site-code](#) || [server-site-code](#)

Technologies

React JS, Node JS, Node Express, MongoDB, Firebase, Tailwind, Heroku.

Project Review:

- A full-stack web application based on MERN.
- This is an e-commerce website. Users can order any kind of bike and they see they are orders in the dashboard if the user login.
- This website customized the admin panel and the admin can delete orders, update orders or add products.

Medilab-doctors - [Live site link](#) || [code link](#)

Technologies:

React JS, Node JS, Node Express, Firebase, React-Bootstrap.

Project Review:

- Doctors web application.
- In this web application, users can book appointments if the user logs in.
- There are also male and female doctors available.

Resort - [Live site link](#) || [client-site-code](#) || [server-site-code](#)

Technologies

React JS, Node JS, Node Express, MongoDB, Firebase, React-Bootstrap, Heroku.

Project Review:

- This website is fully functional and responsive.
- On this site, users can book resort if the user log in
- Users can manage their booking and if the needed user can cancel Booking.
